

Brice Awareness Questionnaire – patients

1. What was the last thing you remembered happening before you went to sleep?
2. What is the first thing you remember happening on awakening?
3. Did you dream or have any other experiences whilst you were asleep?

If the participant recalls any episodes of dreaming, an account of the dream is recorded.

At a later date, the same questions above are asked in addition to the below questions after playing back /reading out the account of the dream.

1. What was the worst thing about your operation?
2. What was the next worst?
